'Together we strive to create an educational community of respect and inclusion, empowering all to embrace learning, achieve excellence and transform lives.'

Dear Parents/Carers,

We are delighted to welcome our new Reception classes - as well as our existing pupils & parents - to a new Academic Year.

We are very excited to welcome a new Headteacher at Elmstead Wood Primary School, Cat Lewis, former staff member at Midfield Primary School. It is a pleasure to have her back on the team. We also welcome all new staff that have joined us this year.

We visited all staff on our INSET days at the start of term and spoke to them about our achievements and our drive to continue to raise the bar in delivering a rich and varied curriculum. In light of the Olympics that took place in Paris this summer, we want staff and pupils to aim for "Gold".

We hope you all remained safe and were not directly affected by the unrest that occurred in parts of the UK this summer. Following these events we witnessed the true spirit of British solidarity, as communities united with compassion and care to repair and rebuild. People came together, irrespective of background, ethnicity, or religion, demonstrating the power of unity. This collective effort reminds us of the values we as a Trust hold dear - embracing diversity, fostering inclusion, and showing respect. These values are deeply embedded in the curriculum we provide for our pupils.

We are committed to providing a diverse and inclusive learning experience throughout your child's primary education. We continuously work with all staff to ensure that the learning environment and opportunities available to your child enrich their understanding of the world around them. Ask your child to tell you about *Lyfta*, a digital platform that all our schools subscribe to. *Lyfta* enhances the curriculum by fostering excitement, deepening knowledge, and increasing engagement with global topics.

Very best wishes,

Gulcin and Cori
